Award for LOYTEC

3rd place for LOYTEC at the Austria's Leading Companies Award 2015

Also in 2015, LOYTEC received the highly coveted "Austria's Leading Companies Award". In the category "golden medium-sized enterprises" LOYTEC won a third place not only in the national ranking of Vienna, but also in the Austrian-wide ranking. After the first place in 2014, LOYTEC is again ranked among Austria's business elite.

The award is annually presented by WirtschaftsBlatt (daily newspaper for economics), PricewaterhouseCoopers (PwC), and KSV1870. On the 23rd of November 2015, managing director Dr. Dietmar Loy received the highly coveted award in the course of a celebration at the Viennese Palais Liechtenstein.

Crucial for the judges' decision are different performance figures. As a specialist in building automation and network infrastructure, LOYTEC fights in a highly competitive market. In future, LOYTEC will put the focus of its business on methods for energy saving and IT solutions. "In future, buildings will be located in clouds that opens up the possibility to access systems anytime and anywhere", CEO Dr. Dietmar Loy explains.

The LOYTEC electronics GmbH founded in 1999 today ranks among the leading European providers of intelligent network infrastructure products for building automation. With its staff of currently 70 employees, LOYTEC generated a turnover of 11.85 billion € in the previous year.

About LOYTEC:

Founded in 1999, LOYTEC electronics GmbH today ranks among the leading European providers of intelligent network infrastructure products for building automation. There, LOYTEC exclusively relies on open and standardized communication protocols.

LOYTEC develops, manufactures, and distributes router and gateway solutions, embedded Automation Servers and I/O Controllers, the room automation system L-ROC, DALI lighting controls, and also graphical user interfaces in the form of touch panels or via PCs or mobile devices. The primary focus is on network solutions for buildings and real estate. Methods provided are a secure remote access through the internet, notification, and of course functions for data acquisition, information visualization, and data storage.

Product development and manufacturing are located at the Austrian headquarters in Vienna. Particular emphasis is laid on careful and top-quality execution. LOYTEC is certified according to ISO 9001 since 2004. In addition, the company has branch offices in France (software development) and Germany, (sales) and subsidiaries in the USA and Asia. LOYTEC supplies to more than 80 countries around the world. The export rate is 98 %. Strong partnerships with leading industrial companies and intensive research work in cooperation with universities result in innovative products for customers all around the world. Numerous national and international awards confirm the run of success of this Austrian high tech provider.

LOYTEC products are found in projects like the California Plaza Parking Garage in California, the City of Chandler in Arizona, the St. Louis Zoo in Missouri, the Sony Corporation (Sony City Osaki) in Tokyo, the Iberdrola Tower in Bilbao, the Uniqa-Tower or the T-Center in Vienna, the main train station and the German parliament (Reichstag) in Berlin, the Esprit Arena Düsseldorf, one of the most modern multifunctional stadiums of Europe, the Rheinhallen/RTL-Studios in Cologne, the biggest cruise ship of

the world, the "Oasis of the Seas", the fair center Jaarbeurs Utrecht in the Netherlands, Il sole 24 ore, the headquarters of Italy's leading financial magazine in Milano, the Governor Rockefeller Empire State Plaza in Albany/New York State, the world's most spectacular sport arena, the Dallas Cowboys Football Stadium in Arlington/Texas, the Wangjing International Commercial Center, the China Reinsurance in Beijing and many others.
